Allowable Subject Matter

1. Claims 1-17 and 19-48 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Regarding claims 1, 17, 32 and 42, the references of the prior art of record fails to teach or suggest the combination of the limitations as set forth in the claims: a passive load and a switch connected thereto for selectively coupling the load to the medial feed portion so that the dipole antenna element functions as an absorber for absorbing received signals while the passive load dissipates energy associated therewith the passive load comprising at least one of a printed resistive element and a discrete resistor.

4. Regarding claims 2-16, 19-31, 33-41 and 43-48 are allowable for the reasons given in the claims because of their dependency status from the claims 1, 17, 32 and 42.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
